### PHILIPS

Philips Healthcare products include HeartStart AEDs, MRx Monitor/Defibrillator, IntelliVue Bedside and Portable Monitors, SureSign Vital Sign Monitors, Invivo Expression MRI Monitors, PageWriter Cardiographs, Fetal Monitors and Ultrasound for hospital and pre-hospital medical facilities.

### WELCH ALLYN

Welch Allyn is a leading manufacturer of frontline medical diagnostic equipment and healthcare products for Physicians, Hospitals, Emergency Medical Services, Veterinary medicine, Military and Federal Government. Connex Patient Monitors, SureTemp Thermometers, Green Series Integrated Wall Systems and more.

### LAERDAL MEDICAL

Laerdal Medical is a world leading provider of training, educational and therapy products for lifesaving and emergency medical care. Products include CPR and ALS Training Manikins, Advanced SimMan and Patient Simulation Trainers, Resuscitation Training and Response Products, and AHA/ECC Course Materials

### MASIMO

Masimo creates noninvasive patient monitoring technologies including Masimo SET® pulse oximetry, Rainbow Pulse CO-Oximetry, Capnography and Multi-gas Monitoring Solutions.

### AMICO

Amico's Vacuum Regulators feature disposable back channels and a see-through design for improved infection control. Continuous or intermittent use. Amico's Flowmeters are available for oxygen or medical air, in NFPA or ISO colors.

### INVIVO

Invivo MR Expressions Patient Monitors by Philips levate your monitoring capabilities from MR-level to bedside-level making it easier to connect with hospital IT systems.

### WALMAN INSTRUMENTS

Walman Instruments is the government's most comprehensive source for the top names in the ophthalmic industry including Haag-Streit, Marco, Keeler, Topcon, Reliance, Reichert, Welch Allyn and many more. Installation, Inspection and Preventative Maintenance Plans available.

### PANORAMIC

Panoramic Corporation offers a panoramic X-ray machine for the domestic dental market. Panoramic provides a low cost, high quality product with award winning performance and reliability.

### PANAKEIA

Panakeia represents Rev-Med X-STAT a revolutionary hemostatic medical device engineered for the control of severe bleeding of wounds not amenable to tourniquet application in adults and adolescents.

### MORZINE MEDICAL

Morzine manufactures the DOAK table as the first truly mobile, fully integrated far forward surgical table. Requires zero tools for deploying main platform or for attaching any component or accessory. The Doak Table is the new global standard for point of treatment, critical care.

### RDT

RDT specializes in the design and manufacture of medical devices, including pre-hospital care vital signs monitors. The award-winning Tempus system provides innovative, easy to use and reliable medical device solutions to help manage medical incidents for the military, civilian pre-hospital care market and other remote and challenging locations.

### DEFIBTECH

The Lifeline VIEW AED is the first and only AED with a full-color interactive display. Defibtech's Lifeline ARM Automated Chest Compression (ACC) device developed for performing mechanical chest compressions when effective manual CPR is not possible- simple to use and made for the real world.

## CARDIAC SCIENCE

Powerheart AED devices by Cardiac Science, offering AED solutions to meet the needs of corporations, government, healthcare, military, police, fire or school environments.

## HEARTSINE

HeartSine's focus is to design the best defibrillators possible to address the unique needs for the public access and consumer market. HeartSine Samaritan AEDs are low cost, easy to use and to maintain.

## SYNDAVER LABS

Syndaver Labs designs and builds the world's most sophisticated synthetic human tissues and body parts. The SynDaver Synthetic Human bleeds, breathes, and employs hundreds of replaceable muscles, bones, organs, veins and arteries – all made from materials that mimic the mechanical, thermal, and physicochemical properties of live tissue.

## SOTERA WIRELESS

Sotera Visi Mobile Wireless Monitoring System improves patient safety by empowering clinicians to detect early signs of deterioration in virtually any care setting, enabling early intervention and rapid response, all while supporting the patient experience.

## CHEETAH MEDICAL

Cheetah Medical is a device company developing non-invasive cardiac output and hemodynamic monitoring devices. The CHEETAH NICOM provides non-invasive stroke volume measurement and overall hemodynamic monitoring with four easy to place sensors.

## POCKET NURSE

Pocket Nurse provides Quality and Cost Effective Products for Healthcare Education and Medical Simulation Worldwide. Demo Dose is the Market Share Leader of simulated medications for education.

## PHILIPS LIFELINE

Philips Lifeline Go Safe, Home Safe, Life Line Response, and Medication Dispensing System help people live more safely and more independently. Auto Alert fall detection technology automatically places a call for help if it detects a fall and the wearer can't push the help button. Auto Alert works at home and on the go.

## EVACUSAFE

Tracked Evacuation Stair Chairs from Evacusafe are specially designed to help evacuate mobility impaired people who require assistance in the event of an emergency situation, such as a fire in a multi-level building. Patient transfer chairs and Evacuslider Rescue Sheets are quick to deploy and easy to use.

## WALLACH

Wallach Surgical Devices, Inc., a medical instrument company, designs and manufactures diagnostic and therapeutic products for obstetrics, gynecology, and infertility practices.

## NAICS CODES
