

Patient Monitors

IntelliVue MP2

Easy-to-use extremely compact patient monitor

PHILIPS

Small enough to fit anywhere. Big enough to monitor anyone.

The IntelliVue MP2 is an amazingly light, flexible, and durable transport monitor that's also amazingly easy to use. It's small in size and big in capability. Now you can monitor anywhere, anytime. Just a single step allows you to unplug and go, helping to evaluate, diagnose, and treat patients in need wherever you are.

And best of all, it's from Philips, so you have the world-class quality, latest in design, and clarity of technology to make it easier for you to focus on the patient, not the monitor.

Resourceful for transport

Now getting from Point A to point B is as easy as 1, 2, 3 with the fastest and simplest way to monitor a patient during transport. A flexible display design is configurable to your environment and can display up to 3 waveforms. The system also features a removable 3-hour battery.

Resourceful in industry-standard measurements

Features a crisp and colorful touch screen with 3.5" display, as well as seamless electronic recording of basic life support measurements. IntelliVue MP2 is also available with optional hospital-grade measurements.

Resourceful for patient mobility

So compact, it's easily carried by patients in low-acuity settings, allowing patients the freedom to roam, and you the freedom to do your best for them.

Resourceful in sustainability

IntelliVue MP2 is a Philips Green Flagship product, meeting rigorous environmental standards in manufacturing and use.

IntelliVue MP2 easily monitors anywhere, anytime

Philips offers a wide range of supplies, including NIBP cuffs, SpO₂ sensors, and a variety of cables and leads to meet your needs.
